

Meridian Police Department/Crime Statistic Report

Paramount Subdivision

M. Kulig, Senior Crime Analyst

April 2nd, 2015

The following information has been prepared for your use at the upcoming HOA meeting. This report includes an analysis of the reported crimes identified in the attached table over a two-year period, from 2013-2014. The table lists the number of crimes and percentage change trends during January 01, 2013 through December 31, 2014. The Paramount Subdivision is between N. Linder and N Meridian and Chinden and McMillan. Therefore, falling into the following Reporting District (RD) 714.

The trend analysis is complete of the crimes listed in the table, which are divided into three (3) categories: "Crimes Against Persons," "Crimes Against Property," and "Crimes Against Society." The Crimes Against Person's are those offenses whose victims are always individuals, such as murder, rape or assaults. The object of Crimes Against Property is to obtain money, property, or some other benefit, e.g., robbery, bribery, burglary, but also includes damage to property. Crimes Against Society represents society's prohibition against engaging in certain types of activity, such as drug violations, gambling, prostitution offenses, Juvenile Offenses and Driving Under the Influence etc. These offenses are divided into these three categories to report the percentage of change over the period analyzed.

A caution is indicated in the interpretation of the percentage figures contained in this report. When dealing with small numbers, it must be remembered that small number changes cause large percentage changes. Thus, while the percentage change is large, it is due to the additions of but one to a few additional events.

The first category, Crimes Against Persons, reflects an overall (-33%) decrease because every offense in this category reflects a decrease except for the False Imprisonment category and in this one incident it happened to be a domestic situation where the spouse would not allow the other to call the police in a domestic violence event.

The second category, Crimes Against Property, reflects an increase of (6%) over the two year period. The Vehicle Burglary offense increased (300%) but technically only went from one report in 2013 to 4 reports in 2014.

The third category, Crimes Against Society, reflect an increase of (44%). The Disorderly Conduct Offense increased from 1 report to 4 in 2014, causing a (300%) increase, and the DUI (Driving Under the Influence) offense increased by (167%) but only going from 3 reports to 8. All DUI reports were cleared by arrest. The All Other Offenses category includes; Juvenile Offenses like Juvenile Beyond Control, Runaway, Student harassment/bullying, Tobacco violations, and it also covers all Warrant and No Contact Order Violation arrests.

Overall, the grand total of crimes reported in all categories, and occurring within the Paramount Subdivision area, reflect an overall (17%) increase of reported crimes comparing from the year 2013 to 2014.
